

Albuquerque Collegiate Charter School Equity Council

In early December 2019, the Albuquerque Collegiate leadership team released an Equity Council Interest Survey. The survey was used to gather community, parent, and family interest in joining the school's Equity Council. The survey was sent out to community partners of the school and parents/families of our kindergarten-2nd grade scholars. All submissions received from the survey were reviewed by the school leadership team and accepted to the school's council. In addition to community and family members, the council is also comprised of a representative from the school's Governing Board, a teacher at the school, and both members of the school's leadership team. The diverse team is comprised of members who represent and have experience working with a wide array of students and communities, specifically those mentioned in the Yazzie/Martinez suit.

Members:

Celestina Garcia, Albuquerque Collegiate Parent, Community Member/Educator
